I/We commit to work collectively to support the South African government, food and beverage sector, and associated organisations to:

Achieve the United Nation's Sustainable Development Goal (SDG) 12.3's target to "by 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses."

Adopt the food utilisation hierarchy, which prioritises increased food utilisation, and the reduction of food and beverage waste, followed by the redistribution of edible, nutritious surplus food for human consumption, and creation of secondary markets for surplus food and beverages, taking food safety into account.

Annually submit food loss and waste data reports and action plans that document activities to reduce food and beverage waste, including year-on-year priority actions, targets, highlights & achievements, and support required.

I/We affirm that _____ understands and is committed to the South African Food Loss and Waste Initiative and declare that we will fully engage in activities and plans and will follow through on the collective national and our internal commitments.
